

NUS – YPO WPO:

The Artistry of Leadership - Creating Meaningful Connections

The Artistry of Leadership-Creating Meaningful Connections® is an interactive, performing arts-based learning experience, which parallels the competencies of a performing artist with those of a leader and executive coach in the 21st Century. Utilizing a Yamaha® grand piano and performing original, contemporary piano music, Kevin Asbjörnson engages attendees in conversational dialogue, contemplation and reflection.

Attendees will explore, discover and practice the creative and artistic competencies associated with inspirational leadership and transformational coaching and experience music as an instructional medium and international language of emotion. In addition, attendees are introduced to the model of the Eight Keys to Inspired Leadership®; a learning and development model for understanding and developing emotional intelligence, creativity and innovation in the workplace and in life.

Kevin D. Asbjörnson, MIM is a professional educator, Yamaha Piano Artist, international recording artist, leadership consultant and international thought leader in the areas of global leadership, creativity & innovation in the workplace, cultural competency, emotional-social intelligence (ESI) and performing arts-based learning. He is a certified executive coach and Senior Adjunct Faculty with the Centre for Creative Leadership, Korn Ferry Leadership & Talent Consulting and Duke Corporation Education.
