HOMECOMING 2005

NOVEMBER 4-6

the
Art of Being Truly Global

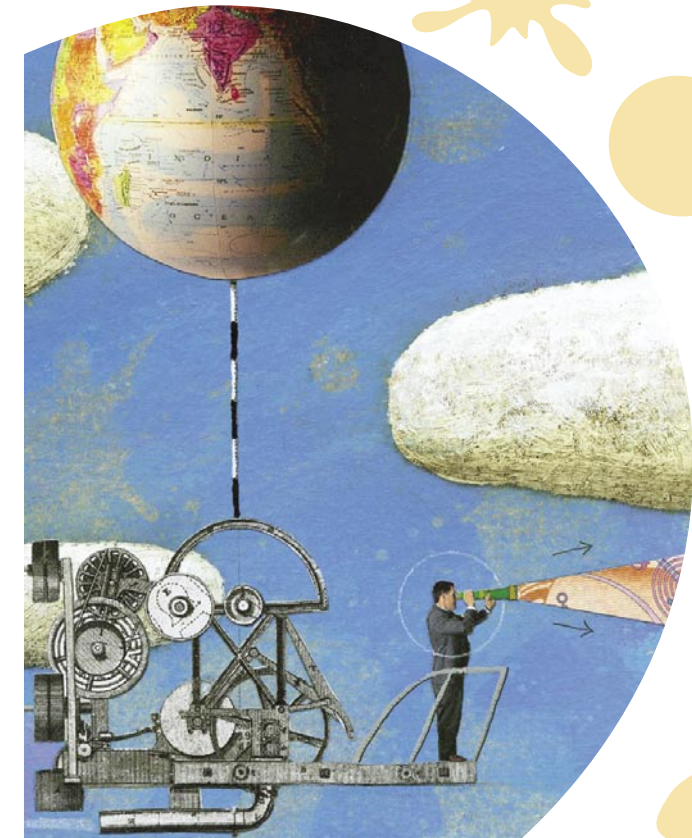

Thunderbird
HOMECOMING
2005

the
Art of Being Truly Global

In the art world, individuals who invent and apply new techniques and thinking in original or experimental ways are known as *avant-garde*. In the world of global business they are called T-birds.

We cordially invite you to join us November 4 - 6 for a memorable Homecoming that celebrates the **Art of being Truly Global** by honoring the mystique that connects T-birds around the world. You'll enjoy a mosaic of artistic pursuits, from a wine tasting and fashion show to an afternoon of "Arts in the Park" complete with music, sports, exhibits and an art scavenger hunt. You'll also have opportunities to challenge your global intellect through a case competition with students and an interactive global mindset discussion with Thunderbird's thought leaders.

Don't miss this chance to catch up with old friends, make new ones and experience a truly global perspective on business, art and what it means to be a T-bird.

If you've ever felt "different" out in the "normal" world, yet completely at home within the Thunderbird community, you're not alone. Innovative research by Dr. Mansour Javidan, director of The Garvin Center for Cultures and Languages, and a team of eight colleagues, including President Cabrera, has captured and defined that elusive quality known as the Thunderbird Mystique. The team has been studying the concept of Global Mindset and has interviewed many Thunderbird alumni.

Join Dr. Javidan for an interactive discussion of their findings. Not a traditional academic presentation, this is a mix of survey results, photos, visuals, and music. You'll leave feeling reinvigorated in your passion for all things global and with a greater appreciation of your own cultural eccentricity. Be sure you bring your spouse - Dr. Javidan will even throw in a little marriage counseling!

Dr. Mansour Javidan

Director
The Garvin Center for Cultures and Languages of International Management

Javidan, an award-winning writer and researcher and a self-proclaimed cultural misfit, has designed and taught a variety of executive development courses, offered and facilitated workshops, conducted consulting projects, and presented in more than 20 countries. He is one of the editors and writers of the recently published GLOBE (Global Leadership and Organizational Behavior Effectiveness) book and is a co-principal investigator of the GLOBE Phase 3 research program. He joined Thunderbird in August 2004.
